2313, a bill to strengthen and preserve Social Security. This legislation was developed through the expertise of the National Commission on Retirement Policy, convened by the Center of Strategic and International Studies.

The Commission was unique among such efforts in that it looked at the entire picture surrounding retirement saving, and did not seek to increase income through one venue at the expense of another. It was our finding that income through all of the components of the national retirement structures—Social Security, employer-provided pensions, and individual savings—needed to be increased if we are to meet the needs of the 21st century.

This legislation to shore up private retirement savings is a companion piece to S. 2313, which dealt with Social Security. I am pleased that it will also be introduced by Congressmen KOLBE and STENHOLM in the House.
